

# Pacific American Lumber

Years in Business: 33

**AT PACIFIC AMERICAN LUMBER, A DEDICATED TEAM WITH OVER A CENTURY OF COMBINED EXPERIENCE IN HAWAII'S CONSTRUCTION INDUSTRY** is ready for projects of any size. The company's Kalihi location offers top-notch materials for kitchen and bath renovations, residential builds and exterior upgrades, with a selection of fine woods preferred by local homeowners and professionals.

## Top Three Products:

1. Formica is trending. Pacific American Lumber is reprising its inventory of laminate, introducing the Fenix and Arpa luxe laminate lines.
2. Neolith is a hit with builders, designers and architects. For sustainable, scratch-resistant stonework, it's sure to please.
3. Monkeypod, mango and other custom, locally grown woods are bestsellers at Pacific American Lumber. Check in often to catch them while available.

## Top Three Design Tips:

1. When it comes to materials, the "price vs. preference" debate is best resolved by industry pros. Pacific American Lumber staff can help.
2. Hawaii's humidity can dampen design plans, but engineered wood and stone from Pacific American Lumber offer durable solutions.
3. Quality materials require expert installation. Premier products truly shine and endure with skilled handling and thoughtful care.
